

# DATACARD® IDCENTRE™ BRONZE IDENTIFICATION SOFTWARE

*IDCentre Bronze identification software offers a smooth migration path to the Silver and Gold editions, so you can take advantage of more advanced features at any time.*

## **Basic features for start-up ID programs**

Datacard® IDCentre™ Bronze identification software includes everything you need to create and maintain a start-up ID program. This easy-to-use package offers intuitive, versatile tools for designing ID cards and reports, as well as flexible capabilities for card creation, image handling, database creation and program administration.

## **User-friendly software, productive capabilities**

- Create dynamic card designs using shape drawing, wrapped text and photos with border, ghost and transparent background options.
- Restrict project access by user and create secure user audit trails.
- Retrieve and incorporate information from a Microsoft® Access database, encode magnetic stripes and print bar codes.
- Leverage the functionality of IDCentre software by integrating it with a Datacard® CD800™ or CP Plus Series card printer.
- Use the Datacard® IDCentre™ View software for view-only access to your database, which makes it easy to add visual verification checkpoints.

IDCentre Bronze identification software offers core tools and has an easy migration path to more advanced capabilities in the IDCentre family.

## Standard Features

- User-defined card size (CR50, CR80, custom)
- Auto-create production form
- Shape drawing support
- Flexible font sizing and colors
- Multiple field selection, alignment and formatting
- Zoom in/out card design window
- Zoom in/out report design window
- Variable text field with masking and static text fields with wordwrap option
- Fields for date (with time option), non-printable area, list, composite, print count, auto sequence, bar codes (21 types) and magnetic stripes
- Photo with border, ghost or transparent background option
- Static and variable graphic fields (with ghost and transparent color options)
- In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
- Image storage as BLOBs or files
- Multiple images per record
- Quick, advanced and stored searches
- View photos in table view
- Auto-create Microsoft® Access 2000 database; databases supported include Access 2000 or later
- Online user's guide, online help and help desk support
- USB hardware key
- Application- or activity-level user security
- Login timeout feature
- Restrict project access by user
- Secure user audit trail
- Compatible with Datacard® CD800™ or CP Plus Series card printers

## Capture Options

- File input
- TWAIN and Video for Windows capture devices
- Datacard Capture Plug-in Tool

## System Requirements

- Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems
- Microsoft® Internet Explorer Web browser (v6.0 or later)
- 512 MB RAM
- 100 MB hard disk space for application (not including database)
- 16-bit color/65,536 colors (some cameras may require higher color)
- 800 x 600 screen resolution (1024 x 768 recommended)
- CD-ROM drive
- Available USB port
