# DATACARD® ID WORKS® ENTERPRISE IDENTIFICATION SOFTWARE

ID Works Enterprise identification software is ideal for end-to-end management of complex ID programs.

Sophisticated software for professional ID programs

Datacard® ID Works Enterprise identification software provides powerful, user-friendly tools for card design, secure card production and flexible management of complex, integrated ID programs.

High-end capabilities, modular components

• **Modular platform.** Separate packages for design and production let you distribute tasks effectively and pay only for the features you need at each workstation.

• **Biometrics and smart cards.** The software offers smart card support (proximity plug-in) to simplify smart card personalization management. You can also design multi-application smart card programs with the ID Works Software Developer's Kit.

• **Intuitive design tools.** Enterprise software enables you to design cards, reports and production forms with speed and simplicity. Shape drawing, transparent backgrounds and ghost images help customize cards. The application lets you integrate production forms with ODBC-compliant, multiple-table databases. Enterprise Designer software also allows you to access ID information stored in a directory service via the Lightweight Directory Access Protocol (LDAP).

• **Enhanced operational productivity.** Simple, powerful interfaces make it easy to capture images, enter and retrieve data and print cards and reports.

Standard Features

Flexible card, report and production form design
 User-defined card size (CR50, CR80, Custom)
 Auto-create production form
 Shape drawing support
 Font sizing and colors
 Multiple field selection, alignment and formatting
 Copy card and report designs between projects
Field types
 Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (22 types, including PDF417 binary support); Magnetic stripe; Static and variable graphic (with ghost and transparent color options); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Binary field; Event button; PDF417 binary bar code support
Image management
 In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
 Image and signature storage as BLOBs or files
 Multiple images per record
 Crop and adjust existing photo
 Batch import/export photos and images from production
Production and data management
 Data-driven production
 Supports multiple-table databases
 Supports Software Developer's Kit
 Proximity card plug-in
 SASI and Lifetouch plug-ins
 Auto-create Microsoft® Access 2000 database

Database management
 Quick, advanced and stored searches
 Retrieve records from "today"
 Retrieve records from "this week"
Database support
 Oracle® Oracle8i, Oracle9i and Oracle10g®, Oracle 11g
 LDAP-compliant directory services (such as Microsoft® Active Directory®)
 Microsoft Access 2000, 2007, 2010
 Microsoft® SQL Server™ 2000, 2005, 2008, 2010
 IBM® DB2® Universal Server 7.1 and 8.1
Help features
 Online user's guide
 Online help
 Help desk support
Security features
 Wizard for managing user account privileges
 USB hardware security key
 Application- or activity-level user security (per computer or system-wide)
 Login timeout feature
 Restrict project access by user
 Secure user audit trail
 Enhanced user password security
 Expiration of password after user-defined number of days
Compatible with the extensive line of Datacard® card printers
Image capture options
 File input
 Datacard® Tru™ Photo solutions
 TWAIN capture devices

Video for Windows capture devices
 Datacard Tru Signature solution
 ID Works Visitor Manager solution

System Requirements

Operating system
 Microsoft® Windows® 2000, XP, Vista®, 7 (32-bit or 64-bit), or 8 (32-bit or 64-bit)
Web browser
 Internet Explorer v6.0 or later
Memory
 512 MB RAM
 100 MB hard disk space for application (not including database)
Color
 16-bit color (65,536 colors)
 (Cameras may require higher color)
Resolution
 800 x 600 screen resolution
 (1024 x 768 recommended)
Peripherals
 CD-ROM drive
 Available USB port

SOLUTIONS AND SUPPORT FROM A PROVEN PROVIDER

Only Datacard Group offers the hardware, software, supplies and service required to manage secure centralized and instant card issuance. We understand the consumer demands, security risks and other unique needs of both issuance models. For 40 years, financial card issuers around the world have trusted us to make card issuance fast, affordable and secure. The Datacard Secure Issuance Platform reflects this unmatched experience. You can also optimize your investment with our full line of professional services for planning, data migration, program start-up and ongoing technical support. We provide support in more than 120 countries.
