Mobile Command Case

Easily transport your command center to any location and operate with little to no preparation.

An All-In-One Mobile Command Case

The Mobile Command Case is a fully integrated, turn-key solution packaged as a compact, self-contained workstation that includes everything you need to photograph, identify and print IDs immediately on-site. The Mobile Command Case is designed to quickly be transported and setup with little to no preparation. Just lift the lid, power up and you're ready to go!

This workstation is a complete solution used to issue credentials on-site and can be integrated with other mobile solutions to track personnel and assets and manage information. The durable, water tight casing can house a command workstation, badging system, cable management, mobile tracking devices and badging supplies while protecting the equipment from atmospheric hazards.

Mobile Command Case Features

> Available as a standard and mini command case.

> Cable management results in little to no preparation.

> A mobile, compact solution makes it easy to transport and store each unit for quick access.

> Each command workstation is protected by a durable, water tight case making it suitable for outdoor use.

> Track people and assets away from the command workstation with wireless connectivity using Mobile Tracking Devices.

> Wireless router and keyboard.

> Ethernet hub with 5 ports.

> Two 110 outlets (large case only).

> VGA out - dual monitor capable.

> Tethered scanner 1D (2D optional).

> 2 accessible USB connections.

A Flexible Solution

Mobile Command Cases can be configured to meet specific goals and allow customers to choose from a variety of components integrated into their unit including printer, ID software, and capture solutions.

Mobile Command Cases can accommodate existing Datacard ID Badging Systems that include a CP40, CP60, CP80 Plus, or CD800 Series printer. Pricing is based on the unique configuration of each unit.

Easily transport to any location!
