

HALO LAMINATION MODULE

BIM029003 (Simplex) | BIM029004 (Duplex)

The next generation of direct-to-card printing, the Halo Card Printer from BadgePass was specifically designed for the evolving ID and security industry.

UNMATCHED SECURITY

The most secure card printer available, secure boot technology protects your system from malware or viruses on bootup and the Trusted Platform Module manages the printer's own certificates and keys. All data sent between the software and printer is encrypted, keeping your cards and data safe and secure throughout each step of the badge issuance process.

USER-FRIENDLY

From unboxing to issuing cards and managing the printer, Halo is extremely user-friendly. The intuitive printer dashboard allows for viewing of printer status, cleaning status, firmware updates and more – all from your mobile device. BadgePass Halo ribbons are easy to swap out and automatically recognized by the printer.

PROFESSIONAL PRINTING

Available for single or dual-sided card production, the Halo printer offers high-quality 300 dpi printing capabilities, allowing you to print professional looking IDs for everyone in your organization. The optional lamination and tactile impression modules allow for advanced badge design security features.

IDEAL FOR:

- Employee Badges
- Student IDs
- Healthcare and Patient Cards
- Event Passes
- Access Control
- and more
